

What is Home Visitation?

Raising a child can be exciting AND challenging!

The first 1,000 days of life, birth to 3 years of age, is incredibly important as babies grow and change rapidly!

Parents are the most important person in their child's life.

Sometimes extra supports are needed. Home Visiting is provided for parents who are pregnant, have a newborn, or a young child.

Individualized, Family-Centered, & Strength-Based Support Services

Promise 1000 Strives to Impact:

- Maternal/Child Health & Well-being
- Child Development & School Readiness
- Home Safety & Family Resilience

Research suggests that established evidence-based home visiting improves outcomes for children and families during pregnancy and the first years of life!

HOW DOES PROMISE 1000 HELP CHILDREN & FAMILIES?

Experienced home visitors partner with Promise 1000 families by providing comprehensive supports, including:

- Strengthening families by addressing life's challenges.
- Encouraging parent-child interactions that stimulate brain development and learning.
- Increasing knowledge of child growth and development.
- Providing tips on positive parenting practices
- Helping mothers to engage in their own healthcare.
- Supporting child health and well-being by developing positive relationships between parents and doctors.
- Linking families to beneficial community resources.
- Connecting families to in-home services including therapeutic supports for maternal depression.

INTERESTED IN SERVICES?

It's easy to learn more!

Parents or Providers can make a referral online through **Promise1000.org**

Referrals can be matched with an agency of your choice or matched based on eligibility factors, such as: pregnancy status, age of child, location of family, and needs.
